COURSES
Dangerous Goods by Air - Acceptance
Initial

Three-day in Class, Computer on-line or Virtual Classroom

Purpose

This course helps people to interpret and apply the International Air Transport Association (IATA) Dangerous Goods Regulations (DGR), which applies to both domestic and international air transportation. Full compliance with the IATA DGR and associated Australian legislation, together with an understanding of the underpinning concepts behind these Regulations, will protect shippers, their agents, and operators from unknowingly committing unlawful acts in aviation, thereby ensuring the safety of all those who handle air freight or travel by air.

What you get

You will receive comprehensive training in the theory and practical aspects of shipping dangerous goods by air. The course examines all aspects of the IATA DGR and provides a systematic approach to identifying and preparing hazardous shipments for air transport. There are plenty of follow-up exercises to reinforce the knowledge acquired. You're welcome to bring along material safety data sheets (MSDS) if you wish to ask specific questions.

Course Qualification and Recognition

This course is approved by the ICAO recognized authority:

• The Civil Aviation Safety Authority of Australia (CASA).

A certificate is issued on successful completion of an end-of-course assessment and the qualification is valid for **TWO YEARS**. You must attend a "Refresher" course (one-day) within the two-year period for your qualification to remain valid after this date.

Who Should Attend?

This course is ideal for people involved with the packaging, documentation or control of hazardous materials shipped by air.
Shippers of dangerous goods and all personnel accepting air freight for, or on behalf of, freight forwarders and air operators/airlines have a legal requirement to obtain training appropriate to their job function.

Level of Competency

No previous knowledge or experience with air transport or dangerous goods is required to complete the course.

Availability

We have regular scheduled face-to-face courses in New South Wales, Northern Territory, Queensland, South Australia, Victoria and Western Australia but we'll go anywhere. This course can also be undertaken via an an Airsafe instructor led virtual classroom through ZOOM or on-line computer-based training.

Course Fee   (see course schedule)

A+S

COURSES
Dangerous Goods by Air - Acceptance Refresher

Three-day in Class, Computer on-line or Virtual Classroom

Purpose

This course provides a forum for those people with an existing DG by Air Acceptance level qualification to examine the changes that have occurred to the Regulations since their last course. It gives participants a chance to review the contents of the IATA DGR with a reminder of how the Regulations are applied. Full compliance with the IATA DGR and associated Australian legislation, together with an understanding of the underpinning concepts behind these Regulations, will protect shippers, their agents, and operators from unknowingly committing unlawful acts in aviation, thereby ensuring the safety of all those who handle air freight or travel by air.

What you get

You will receive comprehensive training that covers all aspects of the IATA DGR but focuses on the changes that have occurred over the previous two years. The course gives participants a chance to discuss issues encountered and ask questions to assist with the interpretation and application of the Regulations in the workplace.

Course Qualification and Recognition

This course is approved by the ICAO recognized Competent Authority:

•The Civil Aviation Safety Authority of Australia (CASA).

A certificate is issued on successful completion of an end-of-course questionnaire. A "Refresher" course can only be completed prior to the expiry of an existing qualification. If the Refresher course is completed within the three months window prior to the expiry of the existing qualification, then the participant is recertified for **TWO YEARS** from their original expiry date.

Who Should Attend?

This course is designed for people who already hold a DG by Air Acceptance qualification and wish to renew it for a further two years.

Level of Competency

No previous knowledge or experience with air transport or dangerous goods is required to complete the course.

Availability

We have regular scheduled face-to-face courses in New South Wales, Northern Territory, Queensland, South Australia, Victoria and Western Australia but we'll go anywhere. This course can also be undertaken via an Airsafe instructor led virtual classroom through ZOOM or on-line computer-based training.

Course Fee   (see course schedule)

The Syllabus

INTRODUCTION

SHIPPER'S FLOW CHART.

GENERAL INFORMATION
IATA DGR Appendices A - G, and Index

APPLICABILITY   **Definition of Dangerous Goods**   Basis for the Regulations   .
    Application of the Regulations
    Shipper's Responsibilities
    Operator's Responsibilities
    Training Requirements
    Dangerous Goods Security

AUSTRALIAN LEGISLATION

CLASSES, DIVISIONS & PACKING GROUPS

CLASSIFICATION
    9 Classes of dangerous goods
    Safety Data Sheets

IDENTIFICATION
    Selecting a Proper Shipping Name
    Articles Not Restricted
    Limited Quantities
    Using the List of Dangerous Goods
    Numerical Cross Reference
    Special Provisions

PACKING
    Shipper's Responsibilities
    General Packing Requirements
    Limited Quantities   List of UN Specification Packaging
    Format of Packing Instructions

PACKAGING SPECIFICATIONS & PERFORMANCE TESTS
    Specification Markings

MARKING & LABELLING
    Minimum Marking Requirements

    Hazard Labels
    Handling Labels
    Affixing Labels
    Overpacks

DOCUMENTATION
    Specification for the Declaration Form
    Rules for Completing the Declaration Form
    Completing the Shippers DG Declaration
    Air Waybill

LIMITATIONS
    Forbidden Substances
    DGs forbidden unless Exempted
    DGs carried by Passengers or Crew
    Dangerous Goods in Airmail
    Operator's Property
    Exemptions
    Excepted Quantities
    State and Operator Variations

    CARGO AND BAGGAGE ACCEPTANCE
    General Philosophy
    Definitions
    Statement of Contents (for cargo only)
    Common Hidden DG Descriptions
    Air Transport Packaging Standards
    Reporting

RADIOACTIVE MATERIAL (Optional)
    Types of Packaging
    Transport Index
    Labeling
    Excepted Packages of Radioactives
    Marking Requirements
    Documentation

HANDLING (Airline Personnel Only)
    Acceptance
    Loading
    Provision of Information

EMERGENCY PROCEDURES
    In the Air
    On the Ground

COURSES
General Information

_____

You can nominate to attend a course by email (admin@airsafe.com.au), telephone or registering online through airsafe.com.au. Confirmation of your booking will be sent once your nomination is received. We can invoice or accept credit cards for payment of course fees, just tell us what suits you best.

Unscheduled Courses

We try to cater for your needs and frequently schedule extra courses to meet demand. Please ask us if you have any special requests and we will do our utmost to meet your needs.

Help Line

We understand that most people don't deal with transporting dangerous goods all the time, so we offer a free help line to help with those difficult questions. If we can't answer your question, we usually have access to someone who can.

(08) 9277 6968 (within Australia)
