

COURSE

Dangerous Goods by Air - Acceptance Initial

Three-day in Class, Computer on-line or Virtual Classroom

Purpose

This course helps people to interpret and apply the International Air Transport Association (IATA) Dangerous Goods Regulations (DGR), which applies to both domestic and international air transportation. Full compliance with the IATA DGR and associated Australian legislation, together with an understanding of the underpinning concepts behind these Regulations, will protect shippers, their agents, and operators from unknowingly committing unlawful acts in aviation, thereby ensuring the safety of all those who handle air freight or travel by air.

What you get

You will receive comprehensive training in the theory and practical aspects of shipping dangerous goods by air. The course examines all aspects of the IATA DGR and provides a systematic approach to identifying and preparing hazardous shipments for air transport. There are plenty of follow-up exercises to reinforce the knowledge acquired. You're welcome to bring along material safety data sheets (MSDS) if you wish to ask specific questions.

Course Qualification and Recognition

This course is approved by the ICAO recognized authority:

- The Civil Aviation Safety Authority of Australia (CASA).

A certificate is issued on successful completion of an end-of-course assessment and the qualification is valid for **TWO YEARS**. You must attend a "Refresher" course (one-day) within the two-year period for your qualification to remain valid after this date.

Who Should Attend?

This course is ideal for people involved with the packaging, documentation or control of hazardous materials shipped by air.

Shippers of dangerous goods and all personnel accepting air freight for, or on behalf of, freight forwarders and air operators/airlines have a legal requirement to obtain training appropriate to their job function.

Level of Competency

No previous knowledge or experience with air transport or dangerous goods is required to complete the course.

Availability

We have regular scheduled face-to-face courses in New South Wales, Northern Territory, Queensland, South Australia, Victoria and Western Australia but we'll go anywhere. This course can also be undertaken via an an Airsafe instructor led virtual classroom through ZOOM or on-line computer-based training.

Course Fee (see course schedule)

COURSES

General Information

You can nominate to attend a course by email (admin@airsafe.com.au), telephone, fax or registering online through airsafe.com.au. Confirmation of your booking will be sent once your nomination is received. We can invoice or accept credit cards for payment of course fees, just tell us what suits you best.

Unscheduled Courses

We try to cater for your needs and frequently schedule extra courses to meet demand. Please ask us if you have any special requests and we will do our utmost to meet your needs.

Help Line

We understand that most people don't deal with transporting dangerous goods all the time, so we offer a free help line to help with those difficult questions. If we can't answer your question, we usually have access to someone who can.

(08) 9277 6968 (within Australia)
