

COURSE

Dangerous Goods by Sea – Full Accept

Two-day course, CBT on-line or Virtual Class

Purpose

Come along and learn how to interpret and apply the International Maritime Dangerous Goods (IMDG) code and Australian Marine Orders (MO) to shipments of hazardous materials being transported by sea. Full compliance with the Code, plus an understanding of the concepts behind it, will ensure the safety of maritime transport (and of course the environment), and ensure that Australian and international laws are not broken.

The course is designed to provide comprehensive training in the theory and practical aspects of shipping dangerous goods by sea. It examines the IMDG Code and provides you with a systematic approach to packaging and documenting a hazardous shipment for sea transport. There are follow-up exercises to reinforce the knowledge acquired.

Content

This course meets the AMSA and IMO syllabus requirements and includes General Awareness and Function Specific aspects for all classifications of personnel including those who identify, classify, package, mark, label, document dangerous goods and pack CTU and load vessels.

For further information see the syllabus on the following page

Course Qualification and Recognition

This course is recognized by:

- ★ The Australian Maritime Safety Authority (AMSA).

A certificate is issued on successful completion of an assessment. The course is based on the 2022 IMDG. Therefore, in accordance with AMSA and IMO Regulation, the qualification is valid until the 31 December 2025.

Who Should Attend?

If you are involved with packaging, marking, labeling, documentation or control of dangerous goods to be transported by sea, then this course is for you. It's also ideal for freight forwarders and consolidators involved with sea freight, and anyone needing a comprehensive understanding of the processes of shipping dangerous goods by sea.

Level of Competency

No previous knowledge or experience with sea transport or dangerous goods is required to complete the course.
