

# 2026 AIRSAFE

## VIRTUAL COURSES

*Participate from anywhere in the world!*  
*(Well anywhere in the world with a decent internet connection)*

Can't make it to class but don't like computer-based-training?  
Then join an Airsafe Virtual Classroom. It's just like being in class  
(well almost) but in the comfort of your own home.

**Courses** in the Airsafe Virtual Classroom (VC) have maximum 2.5 hour sessions, with breaks every 45 minutes. Function specific competencies, like airline acceptance, can be provided in additional 45 minute sessions. With strict limits on the number of participants, you are encouraged to 'raise your hand' and put questions forward throughout the training – just as you would in a normal classroom environment.

### Highlights

**Comfort** – Attend your desired DG course from the couch or in the office.

**Early bird bonus** - Book more than three weeks prior to course then course material is posted to participants

**Course materials** – Your course reference material is also available from your online student portal.

**Certification management** – Your certification is uploaded to your student portal forming a library for your qualifications.

**Q&A with "expert" trainer** – the chance to ask your questions relevant to your business to a qualified experienced Airsafe DG Guru.

**Cost-efficient** – Gain an understanding transport requirements for dangerous goods without leaving your office/home

**Webinar limited to 20 attendees** – To ensure that you can have your questions answered

**Pants are optional** — but please don't stand up (*Refer: Dunedin virtual Council meeting guidelines May 2020*).

### Courses available:

DG by Air

DG by Sea

DG by Road

Advance Handling - Load Distribution and Restraint

GHS - Hazmat Storage and understanding Safety Data Sheets

and more, just ask!
