ETHICAL BUSINESS PRACTICES POLICY

Uncontrolled when printed

In all aspects of business practice the **AIRSAFE** team are committed to the highest standards of honesty, integrity, accountability and ethical behavior.

All business dealings with our customers and suppliers will be conducted fairly and with integrity. We strive to seek mutually beneficial relationships in all business dealings.

Any form of slavery, or enforced child labour, is abhorrent and completely contrary to the philosophies held by **AIRSAFE**. To these ends, **AIRSAFE** complies with national laws and rules of the United Nations and International Labour Organization on child labour. We support fundamental human rights and do not accept forced labour in any form. This applies to not only **AIRSAFE** operations, but those of our suppliers.

AIRSAFE opposes any kind of corruption. All **AIRSAFE** team members understand and confirm that bribery is not the way we do business. No **AIRSAFE** team member or agent will provide or offer any benefit to a person with the intention of influencing that person in the performance of their duties in order to obtain a benefit or business advantage that it is not legitimately due.

We do not take or make improper payments to any parties including a: Government official, Department, Agency or Government Controlled Company, political party, official or candidate for political office. We also confirm that no **AIRSAFE** owner, employee, or family member thereof, is a Government Official of any country.
